Join us to explore current issues in mental health and human rights in
Victoria. The forum will discuss how the implementation of the
Victorian Charter of Human Rights & Responsibilities (the Charter)
has impacted on the experiences of consumers themselves and
community sector organisations who provide services, support and
advocacy.

The Charter is due for review in October 2011. This is a unique
opportunity to have your say about current issues and the status of
human rights and mental health in Victoria, and explore what can be
done to improve outcomes and service delivery for Victorians with a
mental illness.
